Playing	England U19 squad in the Home Internationals
----------------	--

Report	<p>I was recently selected to play for the England U19 squad in the Home Internationals, which this year were hosted by Wales. The matches were played on The Cardiff University Playing Fields on the 21st of March. I arrived at the pitches at 7.30 prepared for an exciting day of lacrosse. The day started in the changing rooms with the kit distribution followed by some team tactics. Before the matches began the three national anthems were sung. We watched the first half of the Scotland verses Wales match looking for their strengths and weaknesses. It was a high-quality, end to end game but Wales came out the winners. Our first game was against Scotland and was a fast exciting match. The ball was moved quickly and accurately from end to end and there were lovely moves from both sides. However we eventually won the match, 23-4. After a short break, we lined up for our match against Wales. Wales started the match much more confidently and were ahead for most of the first half. However after a couple of fast breaks we regained our confidence and managed to finish the first half ahead. We kept our lead in the second half and the final result was 17-8. Overall I had a great day and the standard of lacrosse was brilliant.</p>
